

VISWANATHAN SAMBASIVAM

Founder & CEO – Inspace Technologies Pvt. Ltd.

Viswanathan's leadership, technology insight and operational expertise have strengthened Inspace's culture of innovation, expanded the company into new markets, and extended its product portfolio and global reach.

Viswanathan started his career as a Network Engineer. Passion towards computers, innovative & creative thinking and entrepreneurship directed him to select his career in the IT consulting Industry and he incorporated Inspace Technologies in 2003. His profile has grown from a network engineer to a CEO who conceptualizes strategic technology initiatives, which can be directly linked with business outcome. Viswanathan holds a Degree in Computer Science from Madras University in India.

Viswanathan pioneered in creating Inspace's innovative division in 2010 "Inspace Consulting Services" which takes care of complete gamut of financial services including Shared CFO services, Decision Support System Reporting to Management, Funds Mobilization, Business Plans preparation / Review, Internal Audit and Business Process / SOP Documentation. He plays a pivotal strategic and marketing role in promoting these services across India to various segments of clients.

He also serves as Director (Technology & Strategy) at Fomra Housing & Infrastructure Pvt. Ltd., and the Advisory Board of Achariya Group of World Class Educational Institutions.

Viswanathan is an active member of CII South Zone, India and he addresses many programs conducted by CII to highlight effective IT utilization for core industries. He also participates in many social projects like addressing school students on leadership, self-image and so on. He participated in Strategic Leadership program for IT Companies at IIM Bangalore.

Viswanathan is the author of Inspace's Technology Audit (TA) concept and framework, which caters technology utilization clarity to the core industries.

Viswanathan's specialized areas are:

- New Business Strategy Development & Management
